

WANDERER

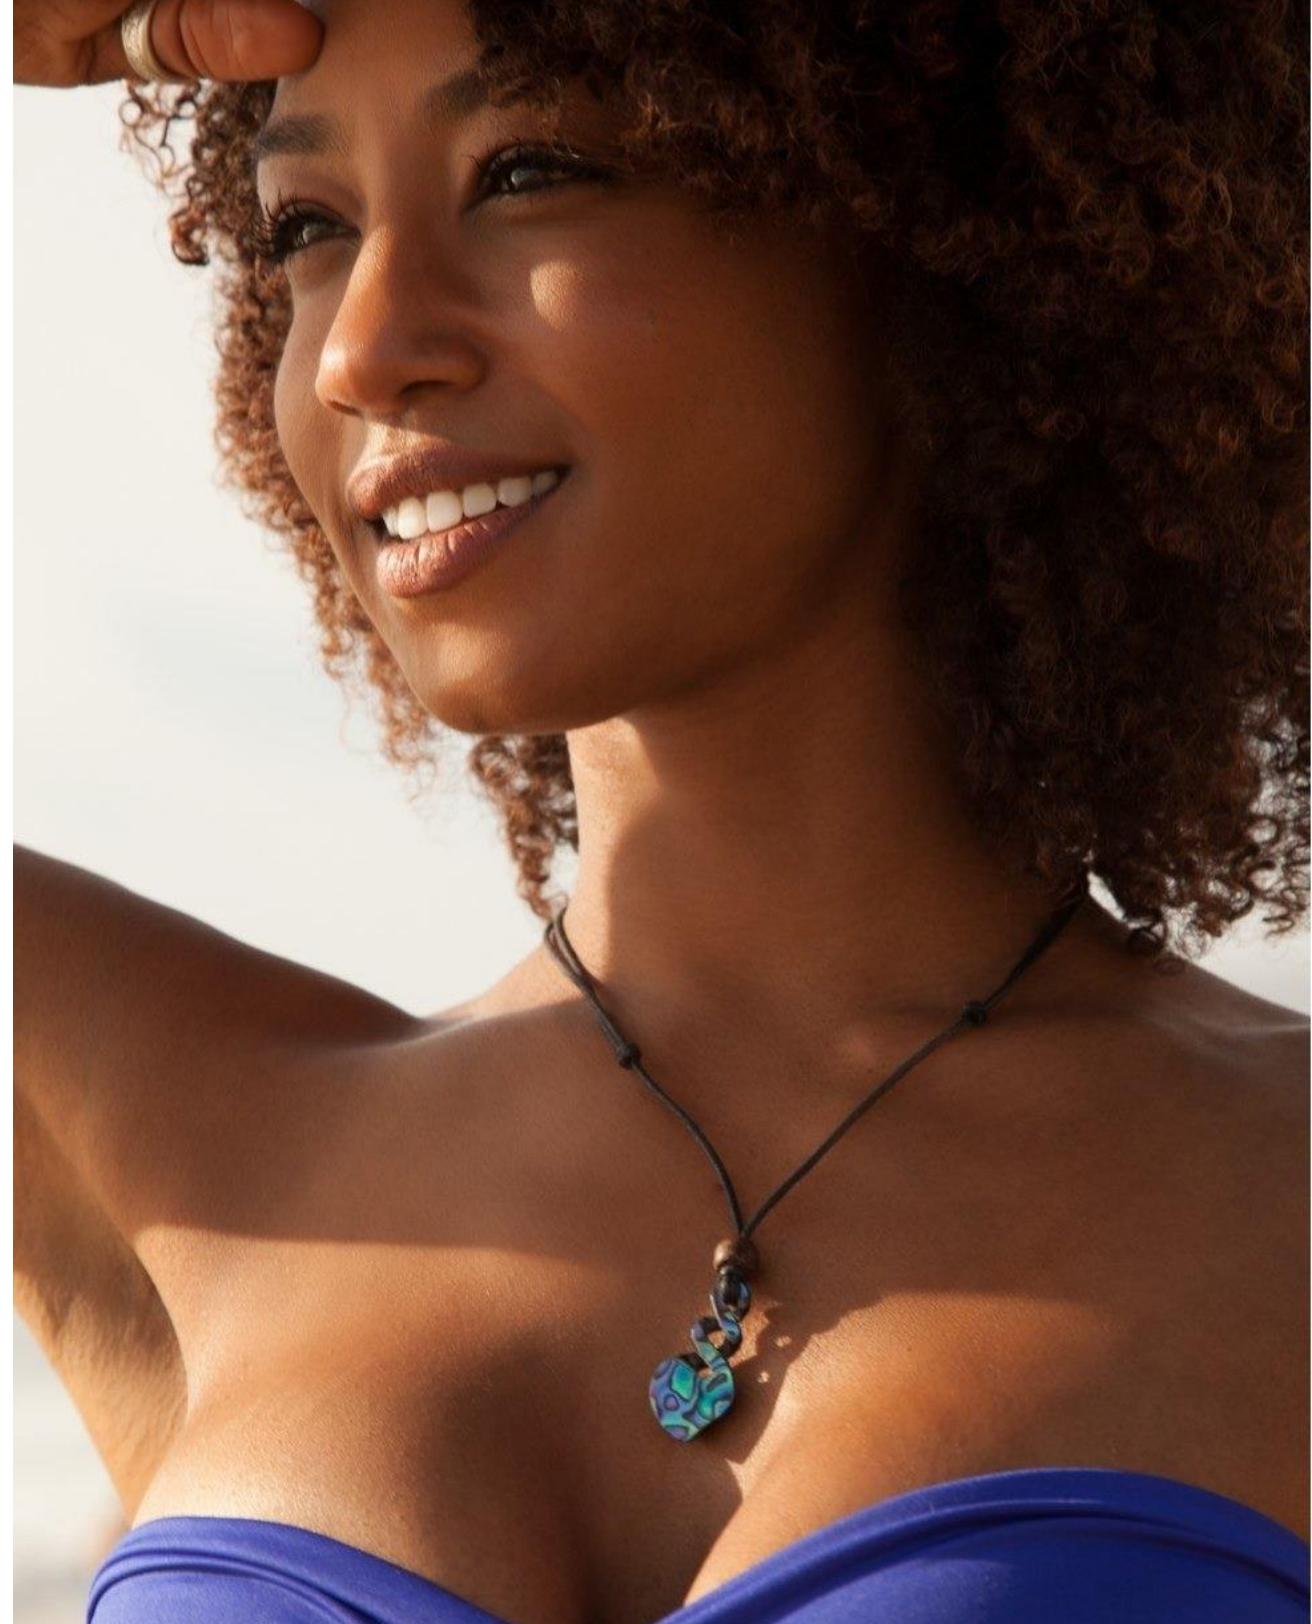

IMPORTS

## OUR MISSION

Since the company was founded in 2008, Wanderer Imports has been dedicated to providing high quality, affordable accessories for people who love the outdoors.

Each necklace is a symbol of friendship, harmony with nature or safe passage on the water.

## QUALITY IMPORTS

Each necklace is hand carved from recycled cow bone, mother of pearl or paua shell (abalone) by one of our skilled artists in Bali. We offer a 120% satisfaction guarantee to each and every one of our retail customers. For wholesale customers, we offer a free display and 100% buy back/swap out guarantee.

“ Since starting to import these carvings in early 2008, I have had the privilege of sharing the symbols with some incredible people. This has allowed me to keep learning and exploring, helped support the incredible carvers of a Balinese fishing village and hopefully spread some good vibes around the world ”

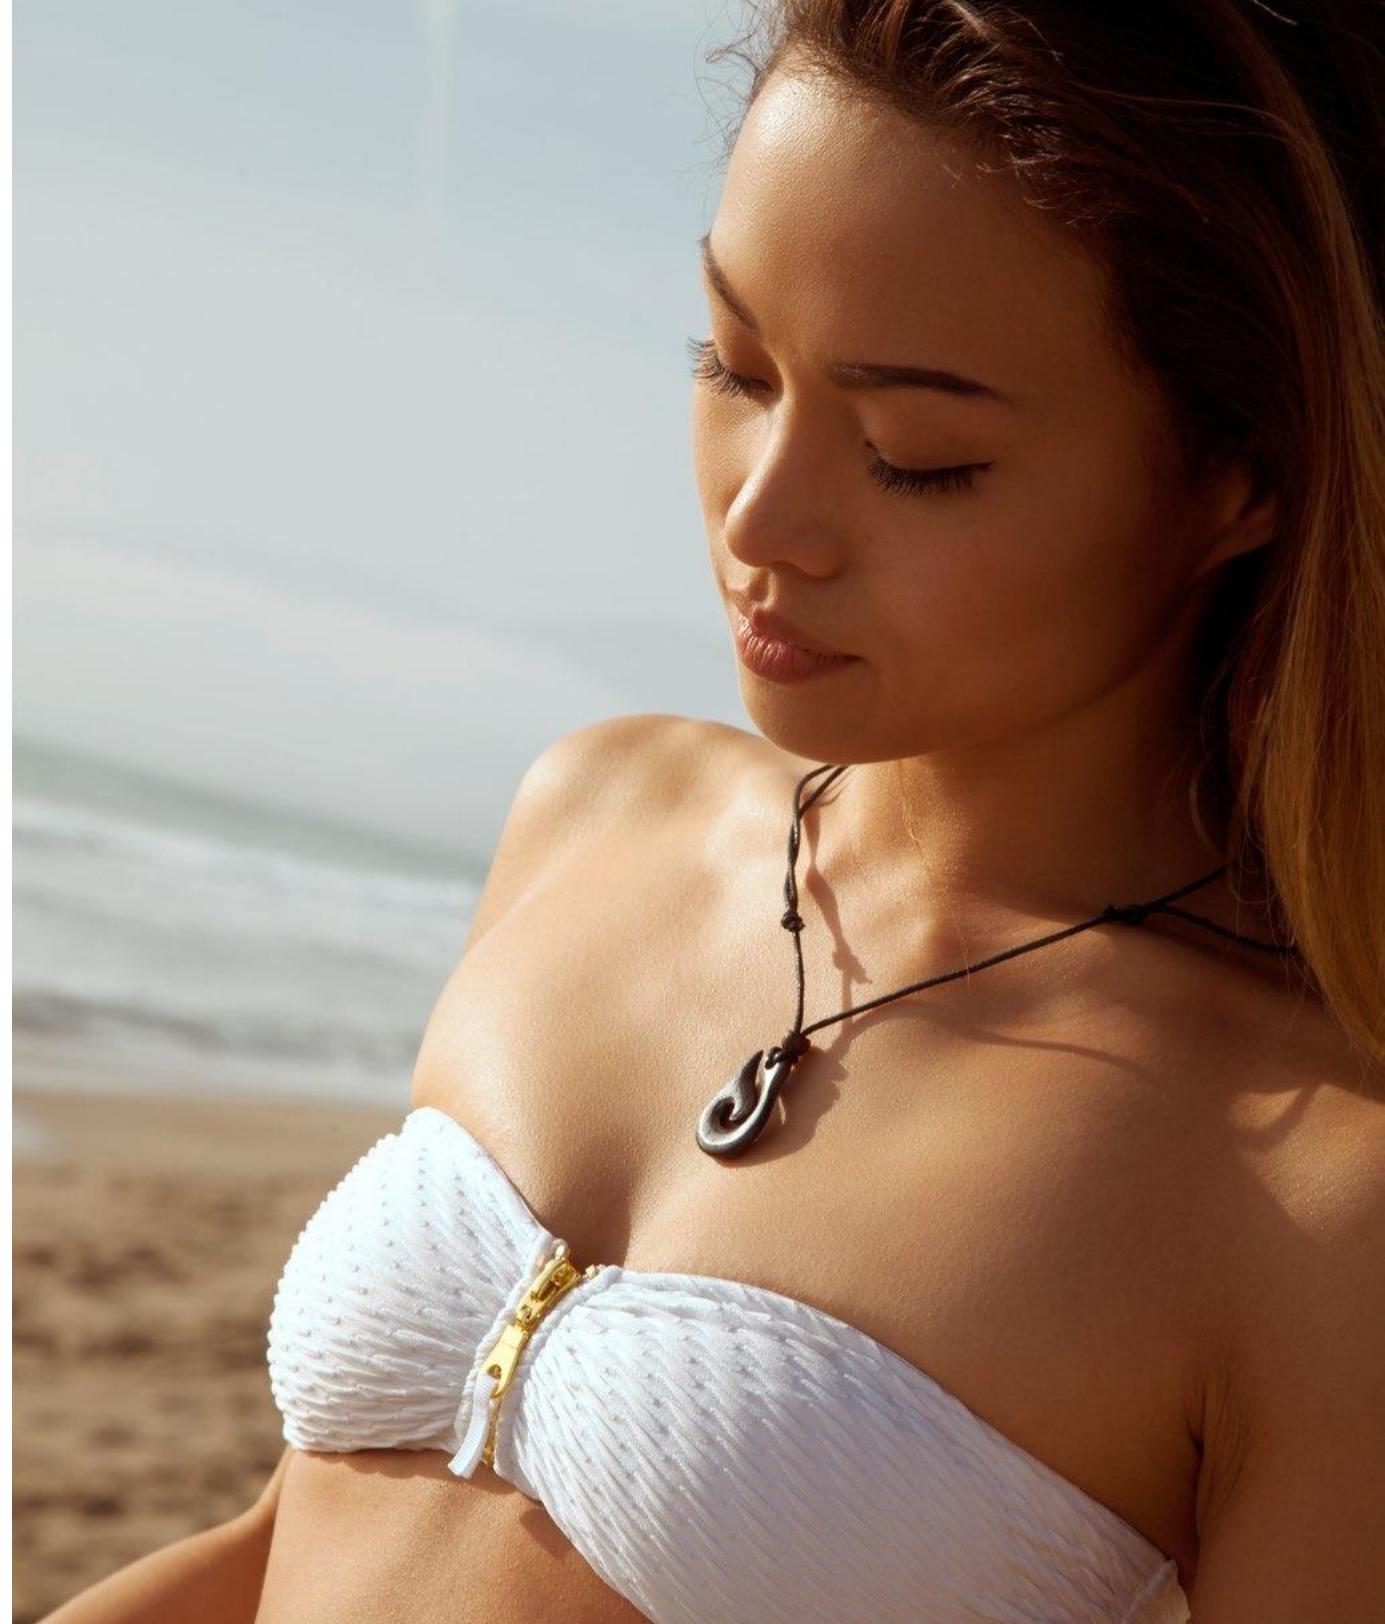

- Sean West, Founder

# MAORI SYMBOLS

We have three main types of symbols, all based on traditional Maori Taonga.

Our most popular design, The Hei Matau, is symbol for safe passage over water.

The Koro spiral, based on an unfurling baby fern, and is a symbol for new life, growth and peace.

The Twist is used to symbolize an eternal bond between two people or two groups of people and is frequently given as a symbol of friendship.
